SUMMARY

Computer Science graduate with a GPA of 3.983, possessing a strong foundation in Software Engineering, Data Structures, Algorithms and Full-Stack Development using languages such as Java, TypeScript, Python, and C++.

_____

TECHNICAL SKILLS

TypeScript, SQL, HTML5, CSS3, Java, Git, JavaScript (ES6+), MySQL, NoSQL, MongoDB, SQLite, React, Angular, Node.js, Express.js, Python, C++, REST APIs, MVC Architecture, Agile/Scrum, User Interface, Software Development, Web Services, API, UI, Data Structures, Bootstrap, NPM, JSON

_____

PROJECTS

Travlr Getaways (MEAN Stack Web App) - Full-Stack Development
- Developed a travel booking web application using Angular, Express, Node.js and MongoDB, demonstrating proficiency in front-end and back-end services and creating a responsive website design.
- Implemented JWT authentication for secure admin login and session management, ensuring data integrity and user security.
- Utilized Express.js framework for integrating RESTful APIs and managing backend logic.
- Travlr GitHub Page

Weight-Wise (Android App) - Mobile Architecture & Programming
- Built a personal weight tracking app using Java and SQLite in Android Studio, showcasing mobile development skills and applying principles of user interface design.
- Enabled user registration, goal setting and progress tracking over time.
- Weight-Wise GitHub Page

Course Planner (C++/Java) - Data Structures & Algorithms
- Implemented a hash table and BST to organize and retrieve college course data, applying core Computer Science principles and algorithms.
- Designed CLI for viewing course prerequisites and course order recommendations, demonstrating problem-solving and software engineering skills..
- Course Planner GitHub Page

_____

EDUCATION

Southern New Hampshire University - B.S. Computer Science (Sept 2025)
Golden West College - A.A. Business Administration & Social & Behavioral Studies (May 2018)

_____

WORK EXPERIENCE

Customer Service Rep/Sales *- Jaderoom OC | Santa Ana, CA | Jun 2022 - Present*
- Upsold high-value items, demonstrating strong communication and interpersonal skills..
- Offered supervisor role for professionalism and leadership.

Supervisor of Manufacturing *- Se7enLeaf | Costa Mesa, CA | Jul 2020 - Jan 2021*
- Boosted core product output by 120% through effective process management and team coordination.
- Promoted within 60 days due to strong performance and a motivated approach to operational challenges.
