SUMMARY

Full-stack software engineer (B.S. Computer Science, 3.983 GPA) who built and deployed SetTracker, a live React/Next.js + Node app with analytics dashboards and 85%+ API test coverage. Before software, spent 10+ years in customer service and operations, including shift lead, assistant manager and manufacturing supervisor roles, training teams and improving processes.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Java, Python, C++
Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express, REST APIs, API Design, JWT Auth, Input Validation
Databases: MongoDB, MySQL, SQLite, SQL, Schema Design
Tools: GitHub, GitHub Actions (CI), Postman, Vitest, Vercel, Render
Concepts: OOP, Data Structures & Algorithms, Debugging/Troubleshooting, Agile/Scrum, Responsive Design

PROJECTS

SetTracker — Full-Stack Workout Tracking App | Next.js/React, TypeScript, Node/Express, MongoDB | 2025-2026 | [Live](#) | [Demo](#) | [GitHub](#)

- Built and deployed a full-stack Next.js/React + Node/Express app with JWT auth and REST APIs, supporting end-to-end workout tracking and analytics.
- Implemented email verification + password reset flows and protected routes.
- Built Vitest + Supertest integration tests with MemoryServer for REST APIs; achieved 82% statements / 85% lines / 93% functions coverage.
- Designed data models and query patterns to support fast exercise history queries, time-window filtering, and analytics views.

Travel Getaways (Academic Project) — MEAN Stack Web App | 2025 | [GitHub](#)

- Developed a travel booking web app using Angular and Express with REST endpoints and MongoDB.
- Implemented JWT-based admin authentication and protected routes to secure management workflows.

Contact, Task & Appointment Services (Academic Project) — Java, JUnit 5, Maven, GitHub Actions | 2025 | [GitHub](#)

- Built three Java service modules (contacts, tasks, appointments) with HashMap-backed CRUD, unique-ID enforcement and field validation (length limits, phone-format regex, no past-dated appointments).
- Wrote 46 JUnit 5 unit tests covering valid inputs, null and boundary cases, duplicate IDs and missing records, reaching 100% line and branch coverage.

EDUCATION

Southern New Hampshire University - B.S. Computer Science, Sep 2025 | 3.983 GPA
Golden West College - A.A. Business Administration & Social & Behavioral Studies, 2018

WORK EXPERIENCE

Customer Service Rep/Sales - Jaderoom | Santa Ana, CA | Jun 2022 - Present

- Trained new hires on compliance and SOPs.
- Educated customers on the various products and found appropriate matches.

Supervisor of Manufacturing - Se7enLeaf | Costa Mesa, CA | Jul 2020 - Jan 2021

- Reorganized workflow to increase production rate by 120%.

Additional Roles (2021-2022): Mortgage Loan Originator, Prover Operator, Food Server
